

After months of planning, I am proud to finally announce the launch of **America First Students**. AFS is a campus conservative organization defined by our support for closed borders, traditional families, the American worker, and Christian values.

In a political climate filled with campus organizations that put America last, I want to bring a new vision to our campus – one that puts the American people first, and emphasizes the importance of God and family above all else. Increasingly, the interests of Americans are overlooked by our globalist ruling class, which is more concerned with looting the country than governing justly. To make things worse, Conservatism Inc. has brainwashed many students into believing that globalist policies – particularly free trade and mass immigration – constitute conservatism, when they clearly do not.

The purpose of America First Students is thus to create a space on campus to advocate for traditional American values and ideals, with the broader goal of defending America against globalism, affirming the vision laid out by President Trump in his inaugural address. If you have any questions or would like to get involved, the best way to contact us is through DM.
